QUALITY
CERTIFICATIONS

OUR MISSION, TO SAVE LIVES

Thanks to his high performance in ballistic tests, Miguel Caballero has 12 certifications granted by the NIJ (National Institute of Justice). The agency of the United States Department of Justice developed the standard verification system for ballistic protection products that ensures that the user has the highest possible level of protection and that it is the strictest reference in the standard of control and quality certification for personal protection products.

The company obtained this international standard quality certification, ISO 9001 promotes the adoption of a process-based approach, where the effectiveness of the quality management system is developed, implemented and improved, to increase customer satisfaction by meeting their requirements.

The BA 9000 certification is an extension of ISO 9001, a quality management standard. Manufacturers who achieve BA 9000 certification must meet additional requirements that are very specific to the manufacturing and testing of ballistic garments. For BA 9000 certified manufacturers, the frequency of audit tests can be cut in half.

The company obtained the ISO 14001 environmental certification that allows us to establish commitments and activities for the prevention of pollution through programs that guarantee adequate and economically viable results.

It is the international standard for occupational health and safety management systems, designed to protect workers and visitors from occupational accidents and illnesses. ISO 45001 certification was developed to mitigate any factor that could cause irreparable harm to employees or the business.

THE SURVIVORS' CLUB
+101 OFFICIAL
CLUB MEMBERS

Our club is focused on gathering and communicating the stories of all those who have survived ballistic threats and accidents while wearing our products.

If your armored product is impacted in the line of duty and your product is damaged, MC-ARMOR® Miguel Caballero® will replace it free of charge in exchange for your testimony.

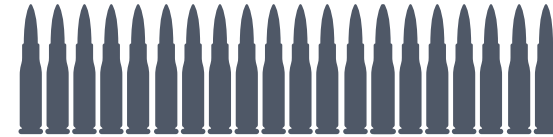

Subject to terms and conditions. For more information, please e-mail:

PROOF OF EXCELLENCE

DESIGN

We have a portfolio of products developed to adapt to the needs of each user taking into account different factors:

- Weather
- Type of use
- Elements that it carries
- Risk to which is exposed
- Technical requirements

CERTIFIED QUALITY

Design, development and production according to the highest quality standards of the market; thus guaranteeing personal protection solutions tailored to the needs of the user.

TECNOLOGY

We count on our Research & Development department which continuously researches to obtain the latest generation materials for developing new prototypes, in order to generate an additional value to satisfy the changing needs of the market.

OUR VALUE PROPOSITION: INNOVATION

The sum of our promises of value: quality, design and technology allow us to develop products with added value, a high degree of innovation that guarantees the satisfaction of each of our users.

MESSAGE FROM OUR CEO

●

MC Armor - Miguel Caballero has been producing ballistic protection solutions, equipping more than 40 police forces around the world, which has allowed us to meet the needs of the police force in daily use.

Based on this vast experience, our Corporate Mission became **PROTECTING THE LIVES** of the officers who wear and wear our products.

Our Company over time has developed products according to the requirements of our clients, based on pillars: Applied Design, Technology, Certified Quality and Innovation, seeking to guarantee the satisfaction of our clients and exceeding their expectations.

S33®

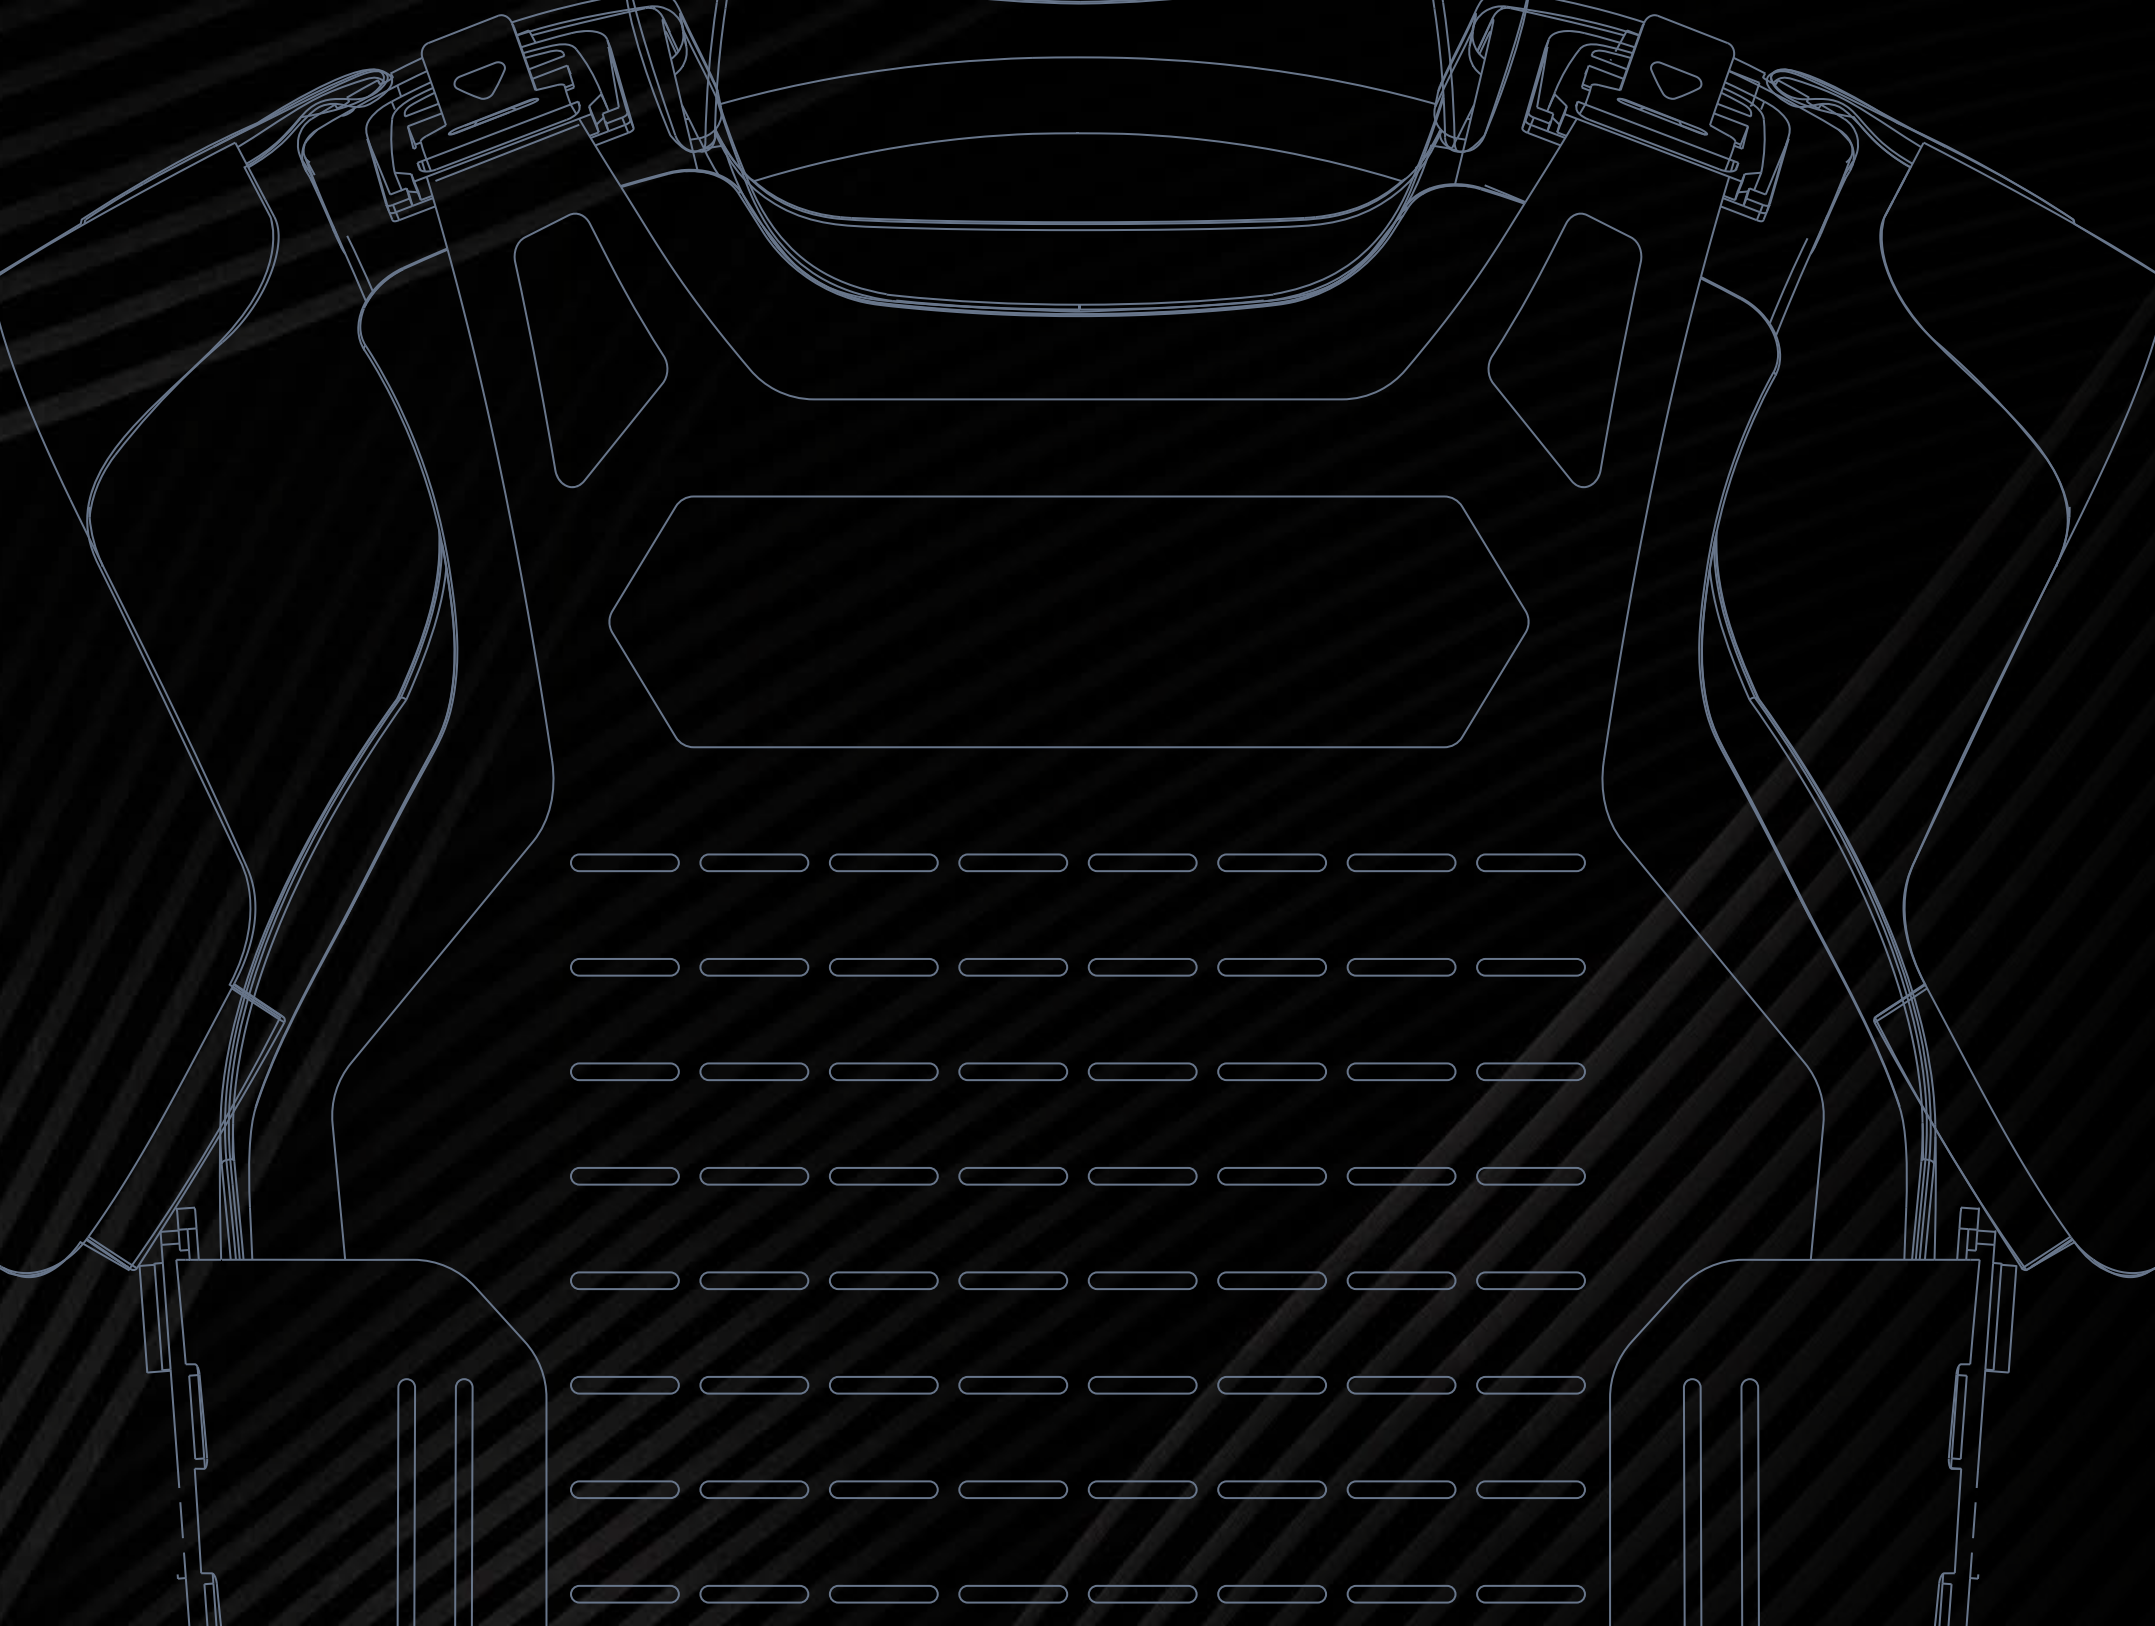

LAW ENFORCEMENT

S33-LAW ENFORCEMENT, is a line of products designed and developed according to the highest quality standards, made with latest generation materials that offer the user greater comfort, less weight, greater safety and confidence.

To preserve citizens security and public order out of criminals and other risks, the Security Forces, Police Forces, who face multiple threats during endless hours in the line of duty among other agencies.
